

COMBINING CRAFTSMANSHIP

WITH INDUSTRIAL EFFICIENCY

ABOUT US:

United Canister Corporation (UCC) is considered among the first facilities in the world dedicated to the production of high-quality tins and boxes.

Originally developed by the French company Paul Lagache who has been manufacturing metal packaging since 1886, UCC revived the idea in 2013. Despite dramatic expansion, we are still committed to the production of high-quality tins and boxes using the original unique processes combining ancestral know-how and advanced technology.

Our extensive experience in the fabrication of metal packaging allows us to offer product innovation, unparalleled quality, short lead times and great flexibility in terms of quantities and above all, helping our customers to add value to their products.

THE PAUL LAGACHE KNOW-HOW:

UCC benefited from the expertise developed by Paul Lagache generation after generation and has become recognized worldwide for the exceptional quality of its lacquering and screen printing.

UCC has set up a high-performance industrial tool to manufacture luxurious metal boxes resistant to the wear of time, making them an artisanal product.

PRODUCTION:

Within a hectare plant, the industrial site has a production capacity of up to 1 million tin per month

Through a unique process that enables producing large volumes while keeping a near-artisanal finish, UCC opens up new perspectives by offering extensive choices in terms of sizes and colors, reduced production times, and greater flexibility in terms of quantities.

OUR PRODUCTS

ROUND TINS:

Round Tin Canisters are ideal for Loose Leaf Tea, Teabags, Coffee and Spices.

RECTANGULAR AND SQUARE TINS:

Ideal for chocolate, biscuits, cosmetics and special gift sets.

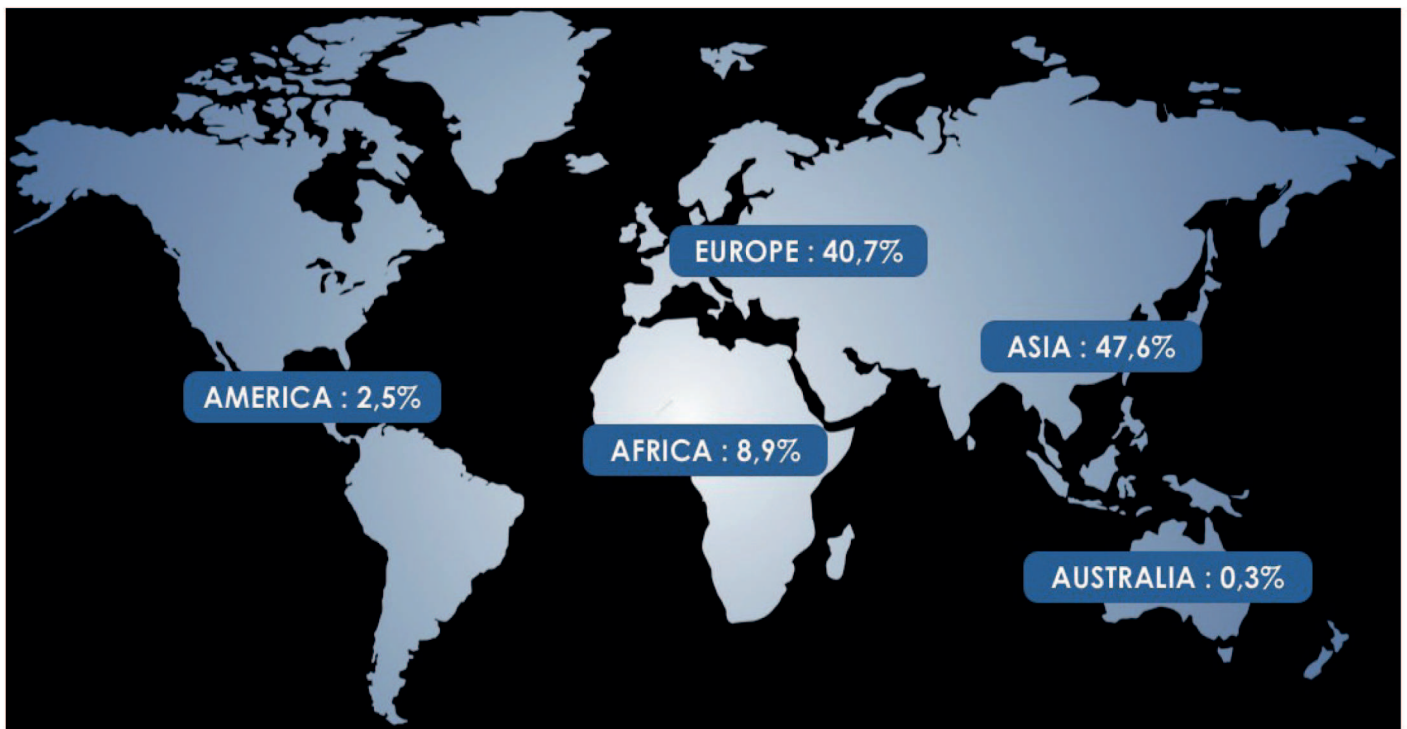

DECORATIVE AND COLLECTABLE BOXES:

Great as part of store decors and also to store products such as tea and coffee.

COMPANY IN NUMBERS

SUSTAINABILITY & RECYCLING

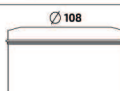

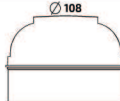

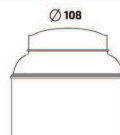

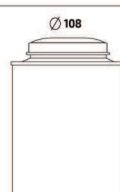

In times of increasing awareness of sustainability and environmental protection, the great strength of metal packaging lies in its incredible recyclability. It is one of the most sustainable and recyclable materials available in the packaging world.

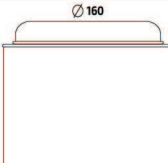

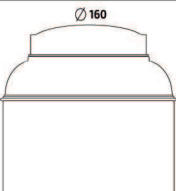

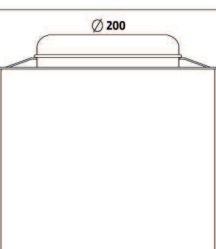

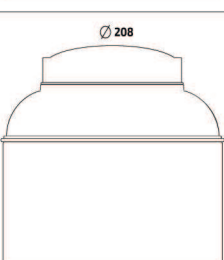

We, at UCC are committed to protecting the environment and we make sure that all our metal wastage is recycled.

Our tinplate tins meet the requirements of the European Regulation 2004/1935 for the food regulation packaging sector.

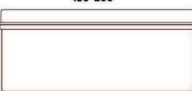

ROUND TINS

	Taille Standard (corps)	Sur Mesure (corps)	Couvercle	Fond
